projects

Song Tower

September 2023 - October 2023

Analyzed a song and developed a tower by isolating, translating, and recomposing in a formal language through rhythm, melody, and lyrics

- explored the parallels between compositions of music and sculpted form
- discovered identity through superimposed systems

Serenity Shields

October 2023 - December 2023

Designed a sustainable education center that places emphasis on providing calm environments

- clustered similar programs in proximity for ease of access
- researched and designed sustainable design strategies to work towards net zero

Social Housing

April 2023 - June 2023

Developed a design proposal centered around a courtyard typology in order to create flexible communal areas

- delved into re-imagining the typology
- created a dynamic and adaptable living environment that facilitates diverse social interactions
- pinwheel configuration

competition

January 2020   7th place
SKILLS USA Architectural Drafting Regional Competition

2018   Top 12
